-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the flap portion in figures 5 and 6 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 5, 10 and 15 are objected to because of the following informalities: it is unclear what is meant by "...disposed substantially between same and said top edge...". Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Johns (US 2,264,314).

Art Unit: 3765

In regard to claims 1-15, Johns provides a clothing garment (20) having a body with a top end defining a collar receiving portion (26, 27, 28) and having a top edge portion integral therewith. The top edge portion including a flap (21) integral therewith and foldable thereover (figure 3). A collar member (22, 31, 32) having a rear side and a bottom edge portion that is removably engagable with the body (23, 24). Further, Johns teaches means for removably attaching the collar member (22, 31, 32) to the collar receiving portion (26, 27, 28). Attaching means (23, 24) extending along the length of the collar member (22, 31, 32), disposed on the rear side of the collar member (22, 31, 32) and forward of the flap (21) (figure 2). The flap (21) being adaptable for extending substantially vertically downwardly from the collar receiving portion (26, 27, 28) and terminating below the attaching means (27, 30) so that the flap (21) covers the attaching means (27, 30) and the flap (21) extends along a length of the of the attaching means (27, 30). The collar member (22, 31, 32) is removable attachable to the top edge portion by a zipper fastener (23, 24, 27, 30).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Smith, Edson, McGee et al., Ferrari, Michelfelder, Prins, Shepherd, Kann, Rosenfeld, Paulsen, Ottusch, Spector, Goetz, Goldson, Harry, Sacchitella, Persin, Freedman, Parets, Freed, Snincak, Bonzi, Marthinsson, Brown, Bennett et al, Chung, Bercane and Liddell are all cited to show closely related garment articles.
